

FUNCTIONAL BLOOD CHEMISTRY ANALYSIS

CE Units for D.C.'s, N.D.'s, L.Ac.'s, and R.N.'s - Please Inquire!

Featuring **Steven Noseworthy**, D.C., D.A.C.N.B., D.C.C.N., B.Sc. (Hon), B.Comm.(Hon)

One of the top nutritional clinicians in the country, Dr. Datis Kharrazian, D.C., D.H.Sc., has given a past-due makeover to the timeless topic of Blood Chemistry. Dr. Steven Noseworthy will present this new information, gleaned from current medical literature, and integrate it into a practical, science-based approach to customize dietary and nutritional support for patients. Dr. Noseworthy will employ Dr. Kharrazian's new reference manual, which will undoubtedly become the industry standard and allow you to:

- Develop a reliable perspective for viewing lab reports
- Assess the immune system
- Evaluate thyroid health
- Identify and manage blood sugar imbalances
- Assess liver, G.I. tract, and biliary function
- Gain a thorough understanding of endocrine physiology and function

We are excited to introduce our Blood Chemistry Software!

We have Technical Support to help dramatically shorten your learning curve and allow you to immediately incorporate the information into your practice.
